Ethanol Energy Open Forum *Discussing the Net-Energy Balance*

Who: The National Corn Growers Association has invited Dr. Tad Patzek, University of California Berkeley, and Dr. David Pimentel, Cornell University, Dr. Bruce E. Dale, Michigan State, and John Sheehan, National Renewable Energy Laboratory.

For more information on the forum, please contact: Jessica Elmore, Administrative Assistant, Marketing at National Corn Growers Association Phone: 636/733-9004, ext. 128 or email at elmore@ncga.com.

What: “The four panelists will discuss the underlying science and their methods, assumptions, and data used in analyzing the “net energy” of ethanol from corn and cellulose, and answer questions from the media present and joining via telephone.” –National Corn Growers Association

Where: National Press Club located at 529 14th Street, N.W., Washington, D.C. 20045

When: Tuesday, August 23, 2005, 10:00 a.m. to 11:00 a.m.

For more information on ethanol please visit www.eesi.org

The Environmental and Energy Study Institute (EESI) is a non-profit organization that works at the nexus of policy and innovation to promote environmentally sustainable societies. EESI was founded in 1984 by a bipartisan group of Congressional Members dedicated to finding environmental and energy solutions. EESI provides credible, timely information and innovative policy ideas through coalition building, media outreach, publications, briefings, workshops and task forces on the issues of energy efficiency and renewable energy, transportation, smart growth, agriculture and global climate change. Carol Werner leads the EESI team as executive director.
